## NEW OFFICERS BUSY

### District Commissioners Have Strenuous Day.

#### ROUTINE MATTERS DISCUSSED

Attorney Edson Asks that Inspector Mothershead Be Transferred on Account of Health—Dr. William Tindall Called into the Conference. Garbage Contract Considered.

Commissioners Rudolph and Johnston, and Engineer Commissioner Judson, spent a strenuous day yesterday.

Early in the day the three officials were at their desks disposing of routine work and receiving callers. At 10 o'clock there was a public session in the board room, when J. R. Judson, an attorney asked that J. R. Mothershead, an inspector in the health department, be transferred to the office of the Collector of Taxes, or the Assessor's office.

Mr. Edson pointed out that Mothershead had been actively engaged in the service for twenty-five years, and that his work in connection with the inspection of cold storage plants had been detrimental to his physical condition.

**Case Under Consideration.**  
Commissioner Rudolph, as president of the board, said that Mr. Mothershead's case would be given prompt consideration.

Following the session, Engineer Commissioner Judson, who is conversant with District matters before Congress, went to the Capitol to look after that legislation.

There was a conference between the Commissioners and Dr. William Tindall, secretary of the board, and the heads of departments in connection with routine business. The old board practically cleaned up all of the more important matters, particularly legislative matters before Congress, and in forwarding all proposed legislation in interest of the District, leaving to the new board only matters of less import.

**Feeling Their Way.**  
President Rudolph said yesterday that the Commissioners were moving slowly—feeling their way, so to speak—familiarizing themselves with public matters connected with the municipal government, and would not inaugurate any important move or introduce any governmental policy until they were thoroughly in touch with every detail.

It was stated yesterday the visit of the delegation, composed of M. M. Parker, Harrison Stidham, S. W. Woodward, and J. F. Wilkens, on Tuesday afternoon to the Commissioners, was in connection with the handling of the city garbage, these men being officials of the company which has the annual contract for the work. Some time ago property owners and residents in the vicinity of Garfield Park, southwest, near which is located the station where the garbage is loaded on the cars for transportation to the Virginia reduction plant of the company, filed a protest against the renewal of the contract permitting the garbage company using the present station, as it was obnoxious to the citizens and detrimental to the public health and safety.

The new Commissioners have thoroughly informed themselves on this subject, and will be prepared to act when the time comes for advertising for a renewal of the contract. In all probability, in accordance with the announced policy of the new board, before the contract is let there will be a public hearing granted to the protestants.

## PRaises LIBERians.

**Dr. Ernest Lyon Addresses Students of Howard University.**  
Dr. Ernest Lyon, United States Minister to Liberia, delivered an address yesterday afternoon before the students of Howard University on the conditions and present prosperity of the African republic. Dr. Lyon praised the struggle of the Liberian government since its establishment sixteen years ago, because of climatic conditions and its close contact with a barbaric civilization. The achievement of the three negro freedmen, who, with no knowledge of governmental experience or legislation, built a republic that was recognized by England and America, he declared to be remarkable.

## WELL-KNOWN PRIEST DEAD.

**Rev. W. G. Read Mullan Was Former Prefect at Georgetown.**

Rev. W. G. Read Mullan, S. J., former prefect of duties at Georgetown University, who died at St. Agnes' Hospital, Tuesday night, will be buried this morning from St. Ignatius' Church, Baltimore. He succumbed to Bright's disease, after an illness of several days.

Father Mullan was a Baltimorean, and was born January 28, 1861. He received his early education at the Immaculate Conception Parochial School, and at the age of fifteen entered Loyola College.

When twenty-four years old he went to Fordham College, New York. His success there entitled him to recognition, and he was transferred to Georgetown, where he remained for a year. Then he went back to Woodstock for three years, and in 1890 was ordained at the Cathedral by Cardinal Gibbons.

He afterward returned to Fordham for a stay of eight years as a teacher, and during that time made an enviable record. Father Mullan was transferred to a more responsible work. About this time the superiors were looking about for a man to fill the presidency of Boston College, and Father Mullan was selected for the place. His work again attracted the attention of his superiors, and Georgetown University became the seat of his labor. After two years at Georgetown he was returned to Fordham for a third time, but on this occasion he did not go as a teacher, but as an administrator. From Fordham he was sent to Loyola as president, in September, 1907.

After serving about six months there his health became impaired, and he was finally on this account compelled to relinquish his duties as president.

Col. Jolly was born near Ripley, Ohio, on November 6, 1835. He organized the Eighty-ninth Ohio Infantry at the outbreak of the civil war. At the close of the war he was promoted to the rank of colonel.

For the last fifteen years he was a resident of Washington, being special examiner in the Post-office Department. He is survived by his wife, Mrs. Mary E. Jolly; a daughter, Jessie Earl Jolly; and a son, Capt. Wade L. Jolly, U. S. M. C., now on his way to the Philippine Islands.

Regene Kline, thirty-two years old, of 605 Fourth-and-a-half street southwest, took a dose of carbolic acid for toothache yesterday afternoon and nearly ended her life. She is at the Emergency Hospital. Her lips and mouth were burned by the acid.

The woman said the aching tooth gave her so much pain she was nearly crazed. She thought a drop of the acid poured on the tooth would kill the nerve. Alone in her room, the woman placed the bottle to her mouth and tried to pour out one drop. The acid burned her gum and she swallowed a quantity.

Relatives ran upstairs when they heard calls for help. The woman was removed to the hospital in a patrol from the Fourth precinct. She will probably be able to leave the hospital to-day.
